General Journal Accounting. Double entry bookkeeping is the most common method of general journal accounting. Every business transaction is done by an exchange between two accounts. There are two equal and opposite accounts for all the transactions, namely credit and debits.

General Journal in Accounting - Definition, Examples, Format

The general journal is an accounting journal used to record journal entries for all types of transactions. Many companies use this journal exclusively to record all of their journal entries in the entire accounting system. There are pros and cons to this approach as it tends to make the journal extremely large and is difficult to search.
