Captive insurers fall into two main groups. Pure captives are 100 percent owned, directly or indirectly, by their insureds. Sponsored captives are owned and controlled by parties unrelated to the insured. Read on to learn about rental captives and protected cell captives.

Captive Basics | Captive.com

As you admire the Prisoners from different angles, one can notice Michelangelo's love and understanding of the human anatomy. The Prisoners' heads and faces are the least-developed parts, but they are to communicate with their poses, known as the classic "contrapposto" (counter pose).

Michelangelo's Prisoners or Slaves at the Accademia Gallery

Leonardo da Vinci - Leonardo da Vinci - Anatomical studies and drawings: Leonardo's fascination with anatomical studies reveals a prevailing artistic interest of the time. In his own treatise Della pittura (1435; "On Painting"), theorist Leon Battista Alberti urged painters to construct the human figure as it exists in nature, supported by the skeleton and musculature, and only then ...

Leonardo da Vinci - Anatomical studies and drawings ...

The dominant "anthropological" concept that emerged around 1750 was called degeneration, which can be understood as the precise opposite of what we now know to be true about humankind's origins.
