CIRIA is the Construction Industry Research and Information Association, a neutral, independent and not-for-profit body. Our vision is to be a leading enabler and preferred partner for performance improvement, driving collaboration across built environment and construction sectors for the identification, development and transfer of knowledge.

About - CIRIA

Given this context, the aim of CIRIA's recent report, Assessment and management of unexploded ordnance (UXO) risk in the marine environment (C754), is to set out guidelines that will address possible UXO threats at the outset of a project, thus avoiding expensive delays when threats are discovered at a later stage.

New guidelines for marine UXO management

CIRIA C573 London, 2002 A guide to ground treatment J M Mitchell F M Jardine This report was largely completed before 1993 but has been reviewed and updated in the light of comments made in 1999 and 2000 by the steering group for CIRIA Research Project 604, fiTreated ground Æ engineering
