Mother Link Springer

Some mothers experience neutral or

Get Free Mother Link Springer

negative feelings toward their new infant. This study examined the association between symptoms of postnatal depression and mother-infant bonding and the persistence of these feelings over the first year. Bonding was assessed using the Mother-Infant Bonding Scale (MIBQ), at four times postnatal, “early weeks” (1-4 weeks), 9

Mother Teresa and the religious order she established is an internationally and widely known example of religious charity. She played a large role in the alleviation of extreme poverty, hence can be considered an example of a private (religious) organization with an important service delivery role in the public domain.
