unable to look you in the eye and have a pleasant conversation, much less speak rationally in front of a crowd of people.

Public Speaking as an Engineer: a VERY useful skill ...

I doubt many of us would attribute writing and public speaking to the average engineer's career. We assume engineers leave that stuff to the humanities students. Although the "overworked student" stereotype is still accurate, what most people don't realize is just how prominent and vital communication skills have become in the field of engineering.
